Intro

Verse 1

The mask I wear, for all to see
That covers all of the mess in me
I know that you see me still

A hiding place, safe for me
Where no one sees the broken things
With you, I have no disguise

Chorus

Oh, the length you went to show me
The move you made to know me
Deeply, completely, entirely
You don't waver or forsake me
You know the things that break me and make me whole
God you make me whole

Verse 2

Your secret space, it's calling me
Where I can see what you see in me
I know I can simply be

Bridge
